

DOSATEK

The new patented **DOSATEK** system eliminates the need for stick and sugar. Thanks to its innovative technology, the DOSATEK system allows the dispensing of sweetened beverages without the use of additional accessories.

An advanced control system allows for installation on all vending machines, both new and existing, without changing the user's sweetness selection habits.

DOSATEK also facilitates compliance with EU Directive 2019/904 (SUP), making a concrete contribution to reducing plastic waste and promoting more sustainable vending machine management.

Easy to install on all vending machines

DOSATEK: the vending machine revolution Zero stick, zero traditional sugar

- Measures and mixes the product directly during dispensing
- Sweet, smooth drink, with no aftertaste and **ZERO calories**
- Chosen by over 800,000 consumer families *

Easy and universal

- Quick installation on any vending machine
- Simple, durable and long-lasting device
- The user freely selects the desired level of sweetness

Sustainable and compliant

- Eliminate single-use plastic (stick)
- Adeguamento Adaptation to EU Directive **UE 2019/904 (SUP)**
- It contributes to the reduction of plastic and to a more sustainable management of distributors

TECHNICAL CHARACTERISTICS

Autonomy	500 drinks equivalent to 3 g of sugar
Power supply	12 - 35 V DC
Sugar Motor Vending Machines	12—24 V DC OPTIONAL 220 V
Power input	Standby: 2 watts in operation: 5 watts
Dimensions	L 130 x W 60 x H 140 mm
Weigt	0,2 kg
